※ Some of the testimonials from International Class students

"Lexington Korean School helped me greatly improve my grammar. The books are excellent whether you're a Korean beginner or a little more advanced. The teacher, Mrs. Choi, cares about her students and is very good at explaining things so her students can understand and learn easily." - Ty Godbold

"Ms. Choi is a very funny, energetic, and motivational teacher. She makes learning the hard language fun. We also learn colloquial words, bringing the class to real-world application. She's very patient and takes time for everyone to catch up. The textbook is easy to follow and I enjoy using it in class."
- Kenna Miller

"I liked there was a textbook we went through with a teacher. It would have been very hard to study on my own. The teacher helped us learn how to speak properly. She taught us how to read, and helped us practice speaking the language in class."
- Annie Harover

"I like Lexington Korean School because my class makes me feel comfortable and welcome. Class is always fun and very interactive. Even if I don't have time to study for one week, I still feel like I learn a lot by just attending class."
- Katie Dienhart

"I start learning Korean from Lexington Korean School last August and it's hard to believe it's already been a year...I guess when you enjoyed the classes so much, times flies...Ms Choi is exceptional...she's patient with us, very funny and she takes the time to really teach us Korean in a relaxing and fun way, telling us fun facts and the Korean culture and she always go the extra miles to plan the lessons and I love that sometime she even plan cooking lesson at her house so we can also learn how to cook traditional Korean food.And I also appreciate how even she's busy with her schedule,you can still ask her anything and she would take time to help you,answer all your questions...she's so good at teaching and we have all learned so much from her!!!!"
